Date de sortie : Février 2020

Titre : 05. Tell me what

The stormy wind across my head  
has got me thinking of your smile

The lazy days that will forget,  
but once inside i wake up,  
with a slumber, head on the ground

Can i feel just one more time,

Tell me what's wrong without the rest, oh yeah

Just tell me what's wrong without the rest, oh yeah

Leave your name across the room  
paint it black on the window, the window

Lay on my side once again cause you'll be on the flower then  
Surprisingly

Can I find your ending story.

Tell me what's wrong without the rest, oh yeah

Just tell me what's wrong without the rest,

(cause once inside you make me feel and i feel yeah)

Tell me what's wrong without the rest,  
(once inside you make me feel and i feel yeah)

Tell me (cause once inside you make me feel)  
What's wrong (once inside you make me) without the rest,  
(once inside you make me feel and i feel yeah)

Tell me, Tell me
